Re Caylee Anthony Perceptions
As of this date.

1. Caylee is actually 2, not alive & never made it to her 3rd birthday.
2. I see her climb into an upholstered rocker recliner like a piece of livingroom furniture.
3. Her head rolls to the right with her in a prone position.
She is sleeping since her pulse is still showing.
4. Body is limp.
5. Baseball bat is leaning against a wall in a room all neatly arranged at the wall on right as you enter room. Window at other end from door as a light source.
a) Just saw tongue on Nancy Grace
Cindy took bat outside to confront people protestors.
